

METHOD OF AND APPARATUS FOR PRODUCING PLASTIC BAGSAbstract of the Disclosure

5 A method of and apparatus for producing plastic bags are disclosed. A
web of plastic is folded to form an elongate folded web having free ends and
closer tape is secured to the free ends of the elongate folded web. End stops are
formed in the closer tape at spaced locations thereof and an indicia is formed in
the end stops. The elongate folded web is simultaneously severed and sealed at
10 the spaced locations to produce individual bags.
